DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities:
 - a.) The first page of the specification needs to be amended to recite the parent application, its relationship to the instant application, and its status.

Appropriate correction is required.

Claim Rejections - 35 U.S.C. § 112

2. Claims 34-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 34 is vague. The relationship of the conjugate to the analyte is not clear. Does the conjugate bind to the analyte? The recitation of an "amplifying reagent" is also vague because it is not clear what this reagent is amplifying. The last part of the claim is not clear as to what is producing the "visual indication".

Claim 35 is vague. The recitation of an "amplifying reagent" is also vague because it is not clear what this reagent is amplifying. The last part of the claim is not clear as to what is producing the "visual indication".

Application/Control Number: 09/905,146
